

## editorial overview

# contract is the most valuable resource for the A&D community.

For more than 45 years, Contract has been the hub of commercial design knowledge, connecting professionals, processes, products, and projects. Contract elevates the relevance and value of commercial design by focusing on its power to transform business environments. Through in-depth exploration of the design process, Contract delivers the content and context design professionals need to apply smart, real-world solutions in their own practices.

## Contract addresses design's role in the following sectors:
